

Online Matching System

1st Generation, Jacob Children, and Associate Members

Aloha from Hawaii Everyone,

We are now in our second month! At the right you can see the progress that we have made during the month of October. We went from 31 to 49 applicants/candidates. It is a substantial increase considering that we are not doing any advertising whatsoever.

Last month I wrote to inform you that an official announcement was forthcoming. Well, as you may have deduced, it is still forthcoming. That said ... the BFD has been very busy this month due to various events that have taken place. I am hopeful that during our yearly BFD representative meeting this coming weekend that we will finalize this official announcement. "Why is it so important" you might ask?

The official letter will put the "stamp" of approval on the painstaking efforts that have gone into this noble endeavor. That is, being recognized as a bona fide activity of the Unification Church will provide the credential we feel requisite in order to advertise comfortably via such media as the Unification News and the FFWPU site. This acknowledgement further attests that the whole process of producing and maintaining this heavenly tool is being done by people who are serious about meeting the difficult standards of UC authenticity.

Note: Even though we have increased our registry by 18 people, we have not increased the number of candidates accordingly. That is not because applicants are not qualified to become candidates. It is primarily due to the fact that we all have busy schedules.

Based on our positive experiences and feedback so far, there is little doubt that as people become aware they will utilize this online system to more quickly and efficiently process applications for our precious 1st generation members, Jacob Children, and Associate Members. Applicants, it is your job to stimulate your matching advisor and BFD representative to insure completion of the paperwork on your behalf. Matching advisors and BFD representatives have many applicants to think about, whereas you have only one key person to consider, yourself.

The first thing you need to do is get the list of all the requirements. These criteria are available on the FFWPU site in the Blessed Family Department section. Then go one item at a time and make it happen. Some of you are frustrated because you have done this kind of paperwork in the past but nothing resulted from your effort. If you have a copy of your file, you don't need to redo everything; you just need to update your information. Please do not be discouraged because you are near the finish line, so please don't give up now.

It is the firm objective of our team that by 2013 all those who can be blessed ... will be blessed! Additionally, please don't hesitate to contact me personally with any request or special need.

That is all for now,

Sincerely,

Anne-Marie Mylar
