

Online Matching System

1st Generation, Jacob Children, and Associate Members

Aloha everyone,

June was a very productive month as far as programming is concerned. This was primarily due to a donation of \$5,000 from a private party. Even though you may not see all the modifications as you are accessing the program, here are some of the additions and improvements:

- 1) List of advisors now available on the sponsor and advisor main screen
- 2) 21-Days and 7-Months lists of couples (with the # of weeks into their relationship) is now available from the Advisor main screen
- 3) The word "Generation" in profiles has been changed to the word "Category"
- 4) The word "Category" has been changed to the word "Status"
- 5) Potential candidates list has been reworked to show only candidates that are within 10 years (either younger or older) from the age of the candidate who is doing the search, or for whom a sponsor or matching advisor is doing the search.
- 6) A labeling mistake in the Full Profile of 1st Gen with children has been corrected.
- 7) An additional search function has been added on the Advisor screen (now advisors can search by specific first name, last name, and email address).
- 8) Database information has been relabeled for clarification.
- 9) The advisor list can now be sorted by country, state, email address, and name.

During the month of July additional programming will take place improving profile generation and presentation. Then during summer and autumn additional work will continue as we seek to implement a system that will enable applications to be done online. For that to happen more money will be needed, and I hope that bit-by-bit "a dollar here and a dollar there" will trickle into CIGI (Cheon Il Guk, Incorporated) so that this system can better serve our membership.
