

Dear precious brothers and sisters of mine,

I would like to begin by stating that the “Business Philosophy” statement found on the home page of the OMS public site (<https://www.cheon-il-guk.org/>) is the work of my late husband; the Online Matching System would not have made it without him. October 1st of this year will be the 13th anniversary of the founding of OMS.

My newsletters are few and I do not often ask for money. This is not the way a business operates, but OMS is not a business. OMS is a service offered entirely dependent on the willingness of others to serve as well.

I cannot ask for a fee – because too many of you would then be unable to use the service, even if my fee was only a few dollars. Therefore, the only way that OMS can thrive is by receiving the support of those individuals who feel they can give and continue to keep on giving. However, I only ask those who sincerely believe that OMS is a service that should keep existing for our future generations to donate.

## Stats as of Jan 2023

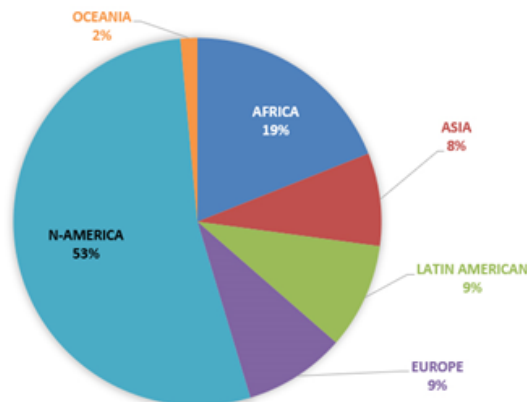

This graph shows applicants and candidates on OMS in accordance with their category.

OMS does not receive money from FFWPU. Though FFWPU through the Blessing and Family ministry supports the effort and the service offered, it was not initiated by FFWPU, and it should not be their financial burden.

I truly believe that if each individual who sincerely seeks the Marriage-Blessing of our True Parents were listed as a candidate on OMS the search for a spouse would be more productive for everyone involved and more couples would be able to form their heavenly blessing.

As a parent who needed to find a spouse for her own daughter, I know how difficult it can be. I am not capable of everything, but I believe that the OMS platform is truly designed to help the candidates, the parents, and the matching supporters to search efficiently and successfully.

Success of OMS is dependent on two things: the number of candidates must increase, and funds must be made available. These two points are intertwined, because more candidates bring more donors and more money leads to a better interface and more features (i.e., cell phone compatibility) which would attract more candidates and donors.

## Stats as of Jan 2023

This graph shows the % of Applicants and Candidates per region.

Thank you for reading.  
Please donate if you can. Any amount of money would be much appreciated, and it would be put to good use.

With gratitude, always,

Anne-Marie Mylar
