How to Create a GREAT profile on OMS!

Not all of us can write very well - BUT

We can all learn to use tools to help us out. **The Flag Page by Mark Gungor** is definitively helping. Below is a comment I received today from one OMS user.

*I finished my flag page.. Was amazing!
I mean amazing!*

The \$25.00 investment is definitively worth it.

Humanmetrics - will help too

This free personality test is based on Carl Jung's and Isabel Briggs Myers' personality type theory. it will help you define and describe yourself better on your profile.

Please try it out.

Example of an answer that could be writtten *better*

Example:

Family Vision: 2 children, prefer to live in US, financially stable, apartment or house is OK but not too far from church, involve in church activities, HDK everyday, both husband and wife participate with house chores.

Let's redo the answer above:

I would love to have more than one child, two would be ideal. I do not feel capable of raising a large family, but I am confident that I can give my whole being to my husband and two children. I would prefer to stay in the United States, I do not feel confident to live in a country where I will have difficulty communicating.

I feel it is necessary to be financial stable. I do not expect to be ever super rich, but I do not want to be a financial burden to anyone either. I would like to live in an apartment or a house. However, because I want to be involved with my local church community, I would want to live nearby. I would like my husband and me to be able to do HDK every day. I would like my husband to share house chores with me, and be a full participant in the raising of our children.

In a limited profile - the Essay questions are key!

I cannot emphasize this enough

the answers to the “essay” questions are crucial and should be considered very important.

Someone, either a Matching Supporter, a potential match, or a Parent is going to read your answers and may decide right then, to be interested in finding more about you as a potential match or not even contact you.

Please take time to do these essays carefully. Have someone you trust proofread them. You need to spell-check them too.

Love you all - Anne-Marie
